**FRAME INTERLOCK CLIPS**

- Cannot be used on 615 Wide Tower.
**INTRODUCTION**

This Cantilever User Guide must be used in conjunction with HSS Boss Tower guide. Before assembly, please read the Safety Notes carefully.

The law requires that operatives must be competent and qualified to erect the tower. If another person is involved, please pass on these instructions.

**GENERAL SAFETY**

For safety and the suitability of this equipment contact your local HSS Hire.

There is a serious risk of personal injury if you do not follow all instructions laid down in this guide.

The hire has a responsibility to ensure that all necessary risk assessments have been completed prior to the use of this equipment.

This equipment should only be used by an operator who has been deemed competent to do so by his/her employer.

This equipment is designed to be used by an able bodied, competent adult who has read and understood these instructions.

Anyone with either a temporary or permanent disability should seek specific training.

Notes carefully.

The tower should only be moved by manual effort, or under the influence of alcohol or drugs.

Never use this equipment if you are ill, feeling tired, or under the influence of alcohol or drugs.

Adjustable legs should only be used for levelling and not for lifting the tower.

Assembled mobile towers should not be suspended.

The safe working load on the cantilever platform is 150kg.

The hirer has a responsibility to ensure that all necessary risk assessments have been completed prior to the use of this equipment.

Do not use boxes or stepladders or other objects on the platform to gain extra height.

For further information, design advice, additional guides or any other help with this product, please contact your local HSS Hire.

For further information, design advice, additional guides or any other help with this product, please contact your local HSS Hire.

Do not exceed the safe working load of 100kg of any platform or tower structure as a whole.

Notes carefully.

This Cantilever User Guide must be used in conjunction with a PASMA Certificate & Product Specific Training.

**SAFETY WARNING**

**GENERAL SAFETY**

**ASSEMBLY**

2. Fit 2 Fixed decks to the top and either side of the tower as per instructions.
